Read the following opinion founded on the long experience of the eminent Physician of the Dr J. C. Ayer, - ST. JOHNS, May 8, 1851. Five years trial of your CHERRY PROTORAL, in my practice, has proven what I foresaw from its composition, must be true, that it eradicates and cures the colds and coughs to which we in this

section, are peculiarly liable.

I think its equal has not yet been discovered. nor do I know how a better remedy can be made for the distempers of the Throat and Lungs. J. J. BURTON, M. D., F. R. S. See what it has done on a wasted constitution not only in the following cases, but a thousand more: Supagar, Jan. 21th, 1851.

Dr Ayer; In the month of July last I was attacked by a violent diarrhox in the mines of California. I returned to San Francisco in hope of receiving benefit from a change of cli-mate and diet. My diarrhea ceased, but was at lowed by a severe cough—and much soreness I finally started for home, but received no I en-efit from the voyage. My cough continued to grow worse, and when I arrived in New York, I was at once marked by my acquaintances as a victim of consumption. I must confess that I saw no sufficient reason to doubt what my friends all believed. At this time I commenced taking your truly invaluable medicine with lit the expectation of deriving any benefit from its use. You would not receive these lines did I not regard it may duty to state to the afflicted, through you, that my health, in the space of eight months, is fully restored. I attribute it to the use of your CHERRY PECTORAL.

Yours truly, WHALIAM W. SMITH. WASHINGTON, Pa., April 12, 1848. Pear Sir: Feeling that I have been spared

A cough and the alarming symptoms of Consumption had reduced me too low to leave me anything like hope, when my physician brought me a bottle of your "Protogat." Let a friend tell you, in all kindness, what will soon be the probable result. In a short time, if you continue to neglect yourse'f, o7 you will begin to feel a sense of tightness and oppression across the clest, accompanied with frequent sharp datting pains. Then a dry hacking cough will set in, and when you raise anything it will be a thick and yellowish, or white frothy matter, streaked perhaps with blood. If you still take no medicine, these un-pleasant symptoms will increase, and you will soon have hectic fever, cold chills, night sweats, copious expectoration, and then great prestra-tion. If you still neglect yourself, a few weeks from a premature grave, through your instrumentality by the providence of God, I will take the liberty to express to you my gratitude.
